   No additional faculty are needed at this time. A background in social or personality psychology is needed to teach the course.

22. How will this course be staffed and equipped? Identify the additional costs associated with this new course. If no costs, explain why not.
   This course will be part of the regular rotation of courses offered in the major and will not require any new staff or equipment to be offered; that is, faculty loads will be adjusted to accommodate changes in the curriculum (specifically, the number of core required classes will decrease to allow for the addition of elective courses in the curriculum). 23. Identify the source(s) of funds for any additional costs for the new course. i.e. internal reallocations, special fees from students, etc. If you plan to propose special fees be assessed for this course, be aware there is a separate approval process for special fees.

25. Using State Regents’ definition of liberal arts and sciences (quoted below), characterize the course as follows:
   - Non-liberal arts and sciences
   - Liberal arts and sciences
   
   X Liberal arts and sciences

   “The liberal arts and sciences are defined as those traditional fields of study in the humanities; social and behavioral sciences; communications; natural and life sciences, mathematics; and the history, literature, and theory of fine arts (music, art, drama, dance). Courses in these fields whose primary purpose is directed toward specific occupational or professional objectives, or courses in the arts which rely substantially on studio or performance work are not considered to be liberal arts and sciences for the purpose of this policy. Courses required for the General Educational Program are not necessarily synonymous or mutually exclusive with the liberal arts and sciences.” State Regents Policy and Procedures. Chapter 2, Section 5, “Degree Requirements” part 1, (2). P. II-2-86

26. Please provide a concise, yet comprehensive, statement that explains the reasons for requesting the new course. Include documentation or assessment information supporting the specific request (if possible). Indicate the expected source of student enrollment (majors, minors, programs etc.)
   In the department’s Self-Study for Continuous Improvement (SSCI), external reviewers suggested (a) a greater breadth of courses be offered, (b) a greater depth of courses be
offered, and (c) courses devoted to multicultural and diversity issues. This course will help meet these suggestions. Moreover, according to national data, this is a typical specialty course in the area of psychology.
