8. Please provide a summary of the requested changes. (this is a listing of the changes requested) (This information will be submitted to the OSRHE)
We would like to change the designation of the degree from MA to MS to reflect both the coursework involved in this science-centered degree as well as to remain competitive with other institutions offering similar degrees. We would like to replace the requirement of Psychopathology (which is a diagnosis-based course) with Theories of Personality (which is a research-based course). This change allows the addition of a Psychology and Law course that enhances the knowledge-base of the students. That is Forensic Psychology covers the specific laws surrounding areas pertaining to psychological interests whereas Psychology and Law covers the application of psychological research to the legal system. Finally, the two courses previously approved for the forensic science program (formerly listed as seminars) now have permanent course numbers to include. The GRE requirement was adjusted to allow the program more flexibility in admission parameters. A statement clarifying courses involved in the Accelerated Degree plan is also included.

9. The reason(s) for this change are based on which of the following: (Check all that apply; explain and document in Question #10)
   - Specialized Accreditation
   - SSCI (Self Study for Continuous Improvement)
   - Benchmark (e.g. comparison to peer institutions)
   - Assessment Data
   - Faculty Knowledge/Discipline Expertise
   - Advisory Board/Outside Professional Group
   - Other

Functional review (undergraduate proposals only)
10. For all items checked in Question #9, please provide a concise, yet comprehensive, statement that explains the reasons for requesting the change including any necessary documentation. (The information provided here will be submitted to the OSRHE)

Faculty expertise and comparisons to peer institutions suggested that we should make the proposed changes to the required courses and degree designation.
Thank you for your desire to have an Accelerated Degree Program approved through the Graduate College curriculum review process, which involves a recommendation from the Graduate Council’s Curriculum Committee.

Given that Accelerated Degree Programs permit an undergraduate student to enroll in graduate courses and to count the completed graduate courses toward their undergraduate degree, these curriculum proposals are approved through both undergraduate (Academic Affairs Curriculum Committee) and graduate (Graduate Council) curricular processes. The Academic Affairs Curriculum Committee reviews Accelerated Degree Program proposals and makes recommendations to the Graduate Council.

In order for the Graduate Council to review the proposal submitted, this form should be completed and submitted with the undergraduate curriculum proposal. If approved, the information provided below will be used by the Graduate College to develop the Accelerated Degree Program paragraph in the Graduate Catalog degree sheet; a sample Degree Sheet paragraph is provided below.
