Course description:

As it appears in the current catalog. (required)

This clinical course will provide both lab instruction and clinical field experience related to general medicine and skill integration. Major content areas are conditioning, diagnosis, medical conditions, therapeutic modalities, rehabilitation, pharmacology, nutrition and professional development. Clinical skills will be taught and evaluated requiring the student to demonstrate a level of competency to complete this course. Travel is required and is the responsibility of the student.

Existing: responsibility of the student.

As it will appear in the next catalog or indicate no change. (Please use standard American English including full sentences.)  
Course descriptions only. Do not include prerequisites or enrollment restrictions, these should be added under questions 9-15.

This athletic training clinical experience course requires students to demonstrate: evaluation of, management of, and interventions for general medical conditions. The course provides both a didactic lab and clinical patient/client care opportunities for hands-on learning for medical illness/disease diagnosis and pharmacology applications supervised by a preceptor and doctor at an athletic health care facility. This course will require an eight week clinical immersive experience at the end of the semester. Travel may be required to complete this course and is the responsibility of the student.

- Does this course have an undergraduate / graduate counterpart?  
 Yes  No
- Is this proposal part of a larger submission package including a program change?  
 Yes  No
- Does this course affect a teacher preparation program? (All courses required for any teacher preparation program must have approval from the Council on Teacher Education (CTE) before approval from AACC or Graduate Council.)  
 Yes  No If **yes**, send copy of proposal to the Education Curriculum Committee Chair, Dr. Darla Fent  
 CTE Approval (Stamp or initial) \_\_\_\_\_
- Is this course currently listed in the University Core?  
 Yes  No If you wish this course be listed in the University Core, submit University Core course proposal.
- Is this course a prerequisite for any other course(s)?  
 Yes  No If this change affects the prerequisite, complete course change proposal to delete or change prerequisite.
- Is this course a requirement in any major or minor?  
 Yes  No If this change impacts the requirement of any major or minor, complete program change proposal.
- Does this course affect majors or minors outside the department?  
 Yes  No If **yes**, provide name(s) of department chair(s) contacted, the dates, and the results of the discussion.

8. List all majors or minors which include this changed course as a requirement or elective.  
 (list major or minor by title not major code)  
Master of Athletic Training

9. Prerequisite courses:  
 Will the prerequisite courses change?  Yes  No If yes, fill out below, if no leave blank.  
 NOTE: Adding a "new course" as a prerequisite to an existing course will likely cause enrollment problems.  
 As listed at the end of the course description in the current catalog. (Required)

Existing: \_\_\_\_\_  
 Proposed: \_\_\_\_\_  
 Example 1: MATH 1213 and (MATH 2165 or MATH 2185) and CHEM 1213 Example 3: 8 hours of biology including BIO 1404  
 Example 2: (ACCT 2113 and 2213) and (MGMT 3013 or 3613)

10. Co-requisite(s): Prerequisite courses that may be taken in the same semester.  
 Will the co-requisite(s) change?  Yes  No If yes, fill out below, if no leave blank.  
 As listed at the end of the course description in the current catalog. (Required)

Existing: \_\_\_\_\_  
 Proposed: \_\_\_\_\_

11. Concurrent enrollment: Courses that must be taken the same semester. Example: lab courses.  
 Will the concurrent enrollment change?  Yes  No If yes, fill out below, if no leave blank.  
 As listed at the end of the course description in the current catalog. (Required)

Existing: None  
 Proposed: KINS 5xx3 Transition to Professional Practice - new proposed course

12. Does this course currently have enrollment restrictions?  
 Yes  No If adding or changing enrollment restrictions answer questions 13-15. If not changing or add enrollment restrictions leave questions 13-15 blank.

13. Specify which major(s) may or may not take this course.

Will the major(s) restriction change?  Yes  No

If yes, fill out below, if no leave blank.

Specifying a major, excludes all other majors from enrolling.

**Existing** (as appears in current catalog)

Check one: May  May not

Major Code: \_\_\_\_\_

**Proposed** (if changing)

Check one: May  May not

16. Course objectives for this course: (Please refer to instructional objectives documents at:

<http://www.uco.edu/academic-affairs/faculty-staff/aacc.asp#FAQ/Helpful%20Hints.>)

If previously approved objectives will be used without any changes, check here

As they appear in the course syllabus.

Existing: **The student will understand, explain and demonstrate related knowledge and clinical skills associated with:**

(See assigned Educational Competencies for specific details.)

1. Injury/Illness Prevention and Wellness Protection
2. Clinical Evaluation and Diagnosis
3. Immediate and Emergency Care
4. Treatment and Rehabilitation
5. Organization and Professional Health and Well-Being

As they will appear in the updated syllabus.

Proposed: The objectives of this course align with the Central Six Tenets of Transformative Learning and CAATE Standards.

**Central Six Tenets of Transformative Learning and CAATE Standards:**

A. Central Six Tenets of Transformative Learning

<http://sits.uco.edu/central/central6/index.asp>

The UCO Central Six Tenets promote the mission of student learning by providing Transformative Learning experiences so that students can become productive, creative, ethical, and engaged citizens and leaders.

1. Discipline Knowledge

2. Global and Cultural Competencies
3. Health and Wellness
4. Leadership
5. Research, Creative, and Scholarly Activities
6. Service Learning and Civic Engagement

B. Commission on Accreditation of Athletic Training Education (CAATE) <https://caate.net/pp-standards/>

The Standards for Accreditation of Professional Athletic Training Programs (Standards) are used to prepare professional athletic trainers. The 2020 Standards have the six core competencies with sub-competencies within each area. The core competencies and sub-competencies are:

- A. Patient-Centered Care
- B. Interprofessional Practice and Interprofessional Education
- C. Evidence-Based Practice
- D. Quality Improvement
- E. Health Care Informatics
- F. Professionalism
- G. Patient/Client Care
- H. Prevention, Health Promotion, and Wellness
- I. Health Care Administration

**Course Objectives:**

Upon successful completion of the course the student will be able to:

- I. Develop care plans for patients with medical illness/conditions. 1, 3, A, G, H
- II. Evaluate and manage patient care for individuals with medical illnesses. 1, 3, A, G, H
- III. Select and incorporate interventions that align with patient/client care plans. 1, 3, A, G, H
- IV. Demonstrate the implementation of effective program to reduce injuries. 1, 3, A, G, H
- V. Select and fit and remove protective equipment to minimize the risk of injury. 1, 3, A, G, H
- VI. Demonstrate and apply prophylactic techniques for acute and chronic conditions such as taping, bracing, and padding/wrapping. 1, 3, A, G, H
- VII. Understand diagnostic testing for medical illness and conditions. 1, 3, A, C, G, H
- VIII. Perform administrative duties related to the management of physical, human and financial resources in the delivery of health care services. 1, 3, A, G, I
- IX. Establish a working relationship with a directing or collaborating physician. 1, 3, A, G, I
- X. Develop, implement and revise policies and procedures to guide the operation of athletic training services. 1, 3, A, G, H
- XI. Develop implement and revise policy that pertain to prevention, preparedness and response to medical emergencies and other critical incidents. 1, 3, A, G, H
- XII. Use a comprehensive patient/file management system for the documentation of patient care and health insurance management. 1, 3, A, G, I
- XIII. Develop and implement specific policies and procedures for the purpose of identifying patients with behavioral health problems and referring patients in crisis to qualifying providers 1, 3, A, G, I
- XIV. Understand and educate patients in the management of pharmacological interventions for acute and chronic medical conditions. 1, 3, A, G, H, I
- XV. Understand how to administer medications or other therapeutic agents by the appropriate route of administration upon the orders of a physician or other health provider with legal prescribing authority. 1, 3, A, G, H, I
- XVI. Experience the totality of the care provided by athletic training professionals through an immersive clinical experience which includes participation of the daily and weekly role of an athletic trainer. 1, 3, A, B, C, E, F, G, H, I

17. Please provide a concise, yet comprehensive, statement that explains the specific reasons for requesting the change(s). Include any documentation or assessment information available supporting this specific request.

The Commission on Accreditation of Athletic Training Education (CAATE) has developed new accreditation standards. The new 2020 Standards for Accreditation of Athletic Training Education have new areas of Foundational Knowledge and Core Competencies, as a result the course descriptions, concurrent enrollment, and objectives need to reflect those changes. The changes will help in the Accreditation process. The complete list of new 2020 Standards can be found at <https://caate.net/pp-standards/>.

18. Clearly explain how the characteristics of this course meet or exceed those outlined in Course Level Characteristics. Complete this question only if requesting a course level change. (Copy and paste table from "Course Level Characteristics" document for the appropriate course level of proposed course. Document may be found on: [http://www.uco.edu/academic-affairs/files/aacj/forms/CLC%20table4\\_07.pdf](http://www.uco.edu/academic-affairs/files/aacj/forms/CLC%20table4_07.pdf).)

**5000 LEVEL COURSES**

Course Level Characteristics	Please describe how this course meets this requirement.
<p>1. It is assumed that students in these courses have acquired the ability to use language effectively, to engage in analytical thought and creative processes, and to use information and bibliographic sources with skill.</p>	<p>This course will challenge students to read and analyze current medical research and best practice skills related to patient/client medical illness and conditions. The student will learn to evaluate patients using clinical reasoning skills and document finding in patient records using effective written skills and communicate with the patient using effective verbal skills.</p>
<p>2. It is assumed that students in these courses have achieved a significant level of maturity in the discipline, evidenced by a considerable background of knowledge.</p>	<p>Content knowledge and skills will be at the graduate level and this course will challenge and develop the student's ability to demonstrate content knowledge using high levels of clinical reasoning that is only acquired over time and practice.</p>
<p>3. These courses should be more than a mere extension of undergraduate courses. Rather, they should be qualitatively different. At a minimum:</p> <ul style="list-style-type: none"> <li>a. Students should be required to undertake original scholarly/creative activity.</li> <li>b. Students should assume greater responsibility for mastering the subject matter.</li> <li>c. Close working relationships should exist between instructors and students.</li> </ul>	<p>The course is a clinical evaluation and administration course related course utilizing high levels of learning and skills demonstration. The students will demonstrate this during clinical integrated learning of skills and techniques along with scholarly projects. This course will utilize self-directed learning modules outside of class and utilize class time for integrated skill acquisition supervised and mentored by the instructor. This course will also require an 8 week immersive clinical experience at the end of the course to provide autonomous by supervised practice.</p>
