## View and convert old Flash (.swf) files

## Viewing

Referred to by Adobe as "content debuggers", these applications function as standalone desktop Flash players. The apps can be downloaded at the link below.

https://www.adobe.com/support/flashplayer/debug\_downloads.html

## Converting

Once the flash player is installed, you can use it in conjunction with the capture utility in the Windows gaming overlay (Win+G) to record playback of the SWF file. Note that this does not work with all PC graphics hardware.

Contact systems support if you need assistance in converting legacy Flash video content.
